EXAMINER'S AMENDMENT

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to a method of rolling two membrane sheets with seam tapes (bridging strips), classified in class 52, subclass 459, 741.
- II. Claim 5, drawn to a roll of two membrane sheets with edges joined by seam tapes, classified in class 428, subclass 343.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the process as claimed can be used to make another and materially different product, such as a roll of three membrane sheets joined by seam tapes.

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

During a telephone conversation with Gregory Lunn on 8/22/2006 a provisional election was made without traverse to prosecute the invention I, claims 1-4. Affirmation of this election must be made by applicant in replying to this Office action. Claim 5 is

Art Unit: 3654

withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claim 5 directed to an invention non-elected without traverse. Accordingly, claim 5 been cancelled.

The application has been amended as follows:

In the Claims:

- Claim 5 has been cancelled.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reid is cited for disclosing two sheets of material wound one on the top of each other and offset. Irving, Robison et al., and Knowlton are cited for disclosing rolling roofing material.

The following is an examiner's statement of reasons for allowance: the prior art of record when taken as a whole does not teach or render obvious to combination of Claim 1 including two sheets of material with preapplied seam tape at one edge of the material being wound one on top of the other in an offset manner to align the non seam tape edge of one sheet with the edge of the seam tape applied to the other sheet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William E. Dondero whose telephone number is 571-272-5590. The examiner can normally be reached on Monday through Friday 7:00 am to 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kathy Matecki can be reached on 571-272-6951. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
